### **Description of Swim Levels**

The Levels are presented in a logical progression. It is not unusual for swimmers to stay at a certain level for a few times before they can successfully complete all the skills at that particular level. It is natural for children to develop skills and comfort levels at different paces.

**Pre-School Swimmer:** for children ages 4 & 5 yrs. old who are ready to participate in a group setting **without** a parent. They learn Level 1 skills.

**Level 1:** Ages 6 and up. Water Exploration. They learn water entry & exit, breath control and submerging, buoyancy, changing direction and position and swimming on front & back.

**Level 2:** Primary skills.

**Level 3:** Stroke readiness.

**Level 4:** Stroke Development

**Level 5:** Stroke Refinement

**Level 6:** Skill Proficiency. "Personal Water Safety"

### **Swimming Lesson Sessions**

Three Sessions will be offered. You may sign up for one session. \*\*The two week session includes 9 lessons and one built in "bad weather day". If we don't have a weather day, the extra day will be used as a "fun day". If we have to cancel a lesson due to inclement weather, the lesson is made up on "fun day".

\*\*Due a shortage of swim instructors, we are offering fewer classes.
